House Passes Employer Health Plan Legislation

Before leaving for a two week recess, the House of Representatives passed the **CHOICE Arrangement Act (H.R. 3799)** by a 220-209 party-line vote. The bill would codify two Trump-era regulations intended to lower the cost of employer-sponsored health insurance. The first would allow companies to offer association health plans, and the second would allow employers to provide tax-free contributions through individual coverage health reimbursement arrangements (ICHRAs) to help employees pay for health coverage in the individual market. Democrats have argued that these policies can be used by employers to discriminate against certain classes of employees. The Congressional Budget Office (CBO) estimates that the bill would add \$348 million to the federal deficit over the next decade. The bill is unlikely to be taken up by the Democratic-controlled Senate. The House and Senate will return to session the week of July 10th.

Senate Appropriators Adopt 302(b) Allocations, Two FY24 Spending Bills

Senate appropriators have adopted the top-line spending levels agreed to in this year’s bipartisan debt limit deal. The Senate Appropriations Committee agreed to the subcommittee allocations for fiscal year (FY) 2024’s twelve annual appropriations bills by a 15-13 party line vote. The figures represent a \$12.2 billion cut compared to FY 2023 levels, but are consistent with the debt limit agreement signed into law earlier this month. Committee Chair Patty Murray (D-Wash.), however, has stated plans to redirect unspent funds and use emergency spending to increase total spending levels. Republicans objected to the topline figures, stating that they were not consulted in the drafting of the allocations. Their Republican counterparts in the House of Representatives have opted to adopt spending levels below the ceiling agreed to in the most recent debt limit negotiations.

Senate appropriators also advanced the Agriculture-Rural Development-Food and Drug Administration (FDA) and Military

Construction-Veterans Affairs (VA) appropriations bills in two 28-0 votes last week. The Agriculture-FDA bill includes \$26 billion in discretionary spending, a \$513 million increase in budget authority over current levels. The FDA would see a \$20 million increase. The Military Construction-VA bill includes \$135.3 billion in nondefense discretionary spending, a slight increase over FY 2023. VA medical care would see a \$2.3 billion increase for a total of \$121 billion.

EPW Leadership Requests Comments on PFAS Discussion Draft

Leadership of the Senate Environment and Public Works (EPW) Committee has [released](#) a bipartisan draft bill on per- and polyfluoroalkyl substances (PFAS). The legislation seeks to improve the mitigation and remediation of PFAS contamination. The legal definition of PFAS included in the bill would exclude many types of the chemicals used by the medical device industry. The panel is requesting stakeholder comments on the draft by July 3, 2023.

RSC Releases FY2024 Budget, Includes Medicare Reforms

The Republican Study Committee (RSC) released its fiscal year 2024 [budget](#) last week. The proposal, titled “Protecting America’s Economic Security,” balances the budget in seven years, cuts spending by \$16.3 trillion over the next decade, and reduces taxes by \$5.1 trillion over 10 years. The budget is comprised of over 220 individual bills and initiatives from RSC members, including a Medicare premium support plan that would implement a model whereby the program’s trust funds would be merged into a single fund that would pay premium subsidies to Medicare beneficiaries. The RSC budget asserts that this type of model could reduce premiums overall by 7%.

Blunt Rochester Officially Enters DE Senate Race

As expected, Rep. Lisa Blunt Rochester (D-Del.) has filed the paperwork necessary to launch a 2024 Senate campaign. Sen. Tom Carper (D-Del.) announced earlier this year that he would not seek reelection and endorsed Blunt Rochester to succeed him. If elected, she would be the first woman and first person of color to serve the state of Delaware in the Senate.

Employers Endorse Legislation to Address “Dishonest Billing”

The ERISA Industry Committee has spearheaded a letter to members of Congress signed by other business stakeholders endorsing the *Facilitating Accountability in Reimbursement (FAIR) Act* ([H.R. 3417](#)), and the *Site-based Invoicing and Transparency Enhancement (SITE) Act* ([S.1869](#)). The letter argues that the bills will help address the problem of dishonest billing, or when hospitals “secretly reclassify a doctor’s office they own as a hospital setting in order to charge more money.” The employers argue that these practices contribute to consolidation and higher prices across the health care industry. The *FAIR Act*, introduced by Reps. Kevin Hern (R-Okla.) and Annie Kuster (D-N.H.), aims to harmonize billing practices by ensuring all off-campus outpatient departments have separate national provider identification (NPI) numbers. It would also direct the Centers for Medicare and Medicaid Services to prioritize auditing facilities recently converted to off campus hospital outpatient departments to ensure they are meeting remote location of a hospital facility requirements. The *SITE Act*, introduced by Sens. Mike Braun (R-Ind.) and Maggie Hassan (D-N.H.), would end the 2015 *Bipartisan Budget Act’s* site-neutral exceptions, and prevent off-campus emergency departments from charging higher rates than on-campus emergency departments when standalone emergency facilities are near a hospital campus. It would also require health systems to establish and bill using a unique NPI for every off-campus outpatient department.
